The Quality Committee for Plastic Containers

The Quality Committee for Plastic Containers is called together 4 times a year and besides reviewing the awarding of the Quality Mark for AWBs made of plastic, it deals with all of the technical and safety related topics concerning waste and recycling containers.

The Quality Committee for USD (Underground and Semi-Underground Collection Systems as well as Depot Containers)

The Quality Committee for USD meets on request and deals with all technical and safety related issues concerning Underground and Semi-Underground Collection Systems as well as Depot Containers.
