Molded graduation at each 20ml up to 100ml
Dimension: $\Phi 63 / \Phi 49 / H75$ mm

Urine Collection and DirectTransfer Container(VOL.150mL)

Urine collection and direct transfer containers feature an integrated transfer mechanism for transfer of urine samples directly from the cup to a vacuum sample tube. This closed system helps prevent pouring off, leakage and wet areas, which positively impacts work environments and conditions.

- Containers manufactured in polypropylene and caps made of polyethylene
- No need for laboratory users to open the collection cup and pour the specimen into a tube for process, reducing risk of contamination, providing more safe, simple, efficient and reliable specimen transfer
- Transferring specimens to a tube directly for further analysis and transport.
- Suitable for most vacuum urine tubes.

P/N	STERILE	LID COLOR	PACKING
4020-4305-13	-	Red	Individual flow pack, 250pcs/carton
4020-4304-13	E.O.	Red	Individual flow pack, 250pcs/carton
